

## Senior Management

With a full audit trail of actions taken and by which user senior managers no longer have to hunt for answers to many questions. The existence of by-exception reporting allows those ultimately responsible for meeting the companies contractual obligations to its clients to quickly and easily monitor service levels.

## Finance and Payroll

Finance departments can produce payroll and billing reports to gross values secure in the knowledge that duty start times have been verified by live control room monitoring. Additional savings can be gained by importing this data direct to your own accounting and payroll application or out-sourced payroll service.

## Human Resources

HR departments can effectively monitor staff records including holiday entitlements, sickness, qualifications held, SIA license verification and their expiry dates with this information being immediately available to all authorised personnel. If HR update an employees details all departments are immediately viewing the most recent records also.

## Multi-Man Assignment

Sensible delegation of site specific scheduling can be granted to an on-site Supervisor or Manager allowing them to manage their rosters with Managers secure in the knowledge that they can view or edit any decision taken at site level. End-Client view-only access can also be granted demonstrating a level of operational confidence and transparency that few companies hope to achieve.

Site based or Mobile Supervisors and Area Managers are no longer required to work solely from the office. Free from files full of telephone numbers and AI's all information is now available to them on the road at home or anywhere an internet connection is available.

The use of Smart Phones, PDA's and Lap-Top's truly make it possible for the mobile manager to be effective from anywhere. With access to staff records, schedule data, assignment details and incident reports all located in one central and accessible source.
